

REMARKS

This divisional application is filed for the purpose of pursuing originally filed claims which were cancelled in the parent application after a restriction requirement was issued by the Examiner, as well as new claims 102-106 added in this Preliminary Amendment.

The Amendment to claim 1 herein is not for purposes of patentability, but rather for claim clarity alone, and does not alter the scope of original claim 1.

Respectfully submitted,
WOOD, HERRON & EVANS, L.L.P.
